

GUNA

VERY SPECIAL COSMETICS FOR WOMAN

It is a new range of cosmetic products created especially for women by GUNA, Milan, Italy.

This range embodies all GUNA knowledge about physiology and natural principles.

It includes 5 cosmetic creams that offer a simple and effective solution to common aesthetic problems affecting the gynaecological sphere, the breast, and premature aging of the face and legs.

The composition of these cosmetic products combines different kinds of knowledge. On the one side, the current knowledge about women's psycho-emotional dynamics, which often highlight the negative effects of daily stress on the skin. On the other side, the ancient knowledge of Homeopathy, which joins principles of herbal, mineral and biochemical origin to its own techniques. This creates a synergic action that is actually pioneering in the field of cosmetics.

NATUR 2

MOISTURIZING EXTERNAL VAGINAL CREAM

Natur 2 is an ideal product for the external vaginal area.

It is a moisturizing cream with a light texture, enriched with protein extracts specifically selected to soften and hydrate the external vaginal area.

It enhances the moisture and the tone of the external vaginal area, thus protecting from excessive dryness.

Directions: apply morning and evening with or without applicator.

KEY INGREDIENTS

Hydrolyzed Soy Protein

Rich in phytoestrogens, it may compensate for the estrogens deficiency and relieve concomitant disorders.

Embryo Extract

It revitalizes the vaginal tissue by improving vascularization

Placental Protein

It stimulates peripheral blood flow, with a trophic action on tissues

Cream: 75ml tube

NATUR 3

NOURISHING BREAST CREAM

Natur 3 is an ideal cosmetic for the breast.

It is a moisturizing cream with a light texture and a pleasant silky touch, enriched with herbal extracts specifically selected for the breast tissue.

Natur 3 helps improve the firmness and tone of the breast, reducing the thickness of the fibrous tissues; it may be applied also in case of mammary tension.

Directions: apply gently on the breast by circular massage morning and evening.

KEY INGREDIENTS

Lilium Candidum

It reduces mild hormone deficiencies and releases mammary tension

Echinacea Angustifolia

It stimulates the immune system

Echinacea Purpurea

It reduces inflammation of the serous membranes (painful nodules)

Galium Aparine

It has a strong trophic action on tissues, reducing the thickness of fibrous tissues

Thuya Occidentalis

It reduces proliferative processes involving skin and glandular epithelia

Cream: 75ml tube

NATUR 4

REVITALIZING FACE AND BODY CREAM

Natur 4 is an innovative cosmetic for the face and body, as it promotes a full revitalization of the skin.

It prevents oxidative damage, dehydration and aging of body and facial skin.

It is a moisturizing cream with a light texture and a pleasant silky touch, enriched with herbal and protein extracts, specifically selected to enhance the skin.

The skin becomes smoother, firmer and is kept well moisturized.

Directions: apply gently on the face and neck morning and evening, before make-up and after cleansing. Apply on the body after shower.

KEY INGREDIENTS

Hydrolyzed Collagen

It revitalizes the connective tissue

Aesculus Hippocastanum

It improves permeability of vascular endothelia

Connective Tissue Extract

It revitalizes the connective tissue

Embryo Extract

It revitalizes the skin by improving vascularisation
